

Harnessing the power of a multi-speaker home cinema system in one sleek, state-of-the-art device, you'll hear everything as if you were there, in the stadium, at the concert or in the movie, placing you in the center of the action. When you hear the AMBEO Soundbar, you hear the future of home cinema in one beautiful bar.

All in one

**A multi-speaker home cinema system
in one state-of-the-art device.**

The AMBEO Soundbar delivers a fully immersive sound experience in style.

The brushed aluminum exterior and minimalist detailing offers a viable alternative to those seeking design and performance in one beautiful bar.

Never before has a single soundbar been capable of reproducing deep bass that only an external subwoofer would be able to produce.

3D sound, powered by virtualization

**Immerse yourself in studio-grade sound no
matter the size or shape of your room.**

By capturing the characteristics of your living room and reflective surfaces, and using the latest virtualization technology developed with Fraunhofer, the AMBEO Soundbar merges with the acoustics of your environment to create a 3D sound experience. The 13 independent drivers and the AMBEO technology work as virtual speakers, recreating a surround sound installation and placing you in the center of the action.

No compromise

Full connective capability.

Alongside compatibility with Dolby Atmos, DTS:X, and MPEG-H, the AMBEO Soundbar's Upmix Technology can turn stereo or 5.1 audio into a 3D sound experience. And to ensure that it's easy to connect to your favorite, high quality entertainment there's support for the latest HDMI standards: eARC and Dolby Vision, 4K passthrough compatibility, Bluetooth and Chromecast built-in.

Seamless control

Tailor the listening experience with the Smart Control app.

With the Smart Control app, you can adjust your acoustic settings and tailor your sound to your own personal taste. Compatible with iOS and Android smartphones, the AMBEO Soundbar makes the entire experience completely seamless.

Incredibly immersive 3D sound

You'll feel it. You can't help but feel it.

Powered by 13 high-end drivers, the AMBEO Soundbar delivers a 5.1.4 sound experience while also producing extremely deep 30Hz bass without the need for an extra subwoofer. And thanks to advanced room calibration, it immerses you in studio-grade sound adapted to the specifics of your living room for an unforgettable 3D experience.

A studio-grade audio experience

Engineered to produce more detail than you ever imagined possible.

Engineered to produce more realistic highs and lows, more dimension, and more nuanced detail than you ever imagined possible.

The AMBEO Soundbar lets you tailor your listening experience with a built-in equalizer and three bespoke AMBEO 3D technology modes, where you can adjust the output to your own individual tastes.
